

bwin in nederland

The virtual sports are actually fixed odds events that use a random number generator to determine the winner. No need therefore to be spending time going through the form books. Each of the competitors will be given odds on them to win the event. These are generally good odds with no heavily odds on favourites.

How does Virtual Sports Betting work? - SportyTrader

spartytrader : sports-betting : guide : virtual-sports-betting

In virtual football betting, the outcome of a match is determined by a Random Number Generator (RNG) algorithm. The RNG uses complex mathematical algorithms to generate a sequence of random numbers that are used to determine the outcome of a virtual football match.
